OBJECTIVE

Aspiring Machine Learning Engineer with hands-on experience in building machine learning projects using Python, Scikit-learn, FastAPI, Docker, and AWS. Familiar with data preprocessing, feature engineering, model evaluation, and deploying ML applications. Looking for an entry-level Machine Learning Engineer or Python Developer role.

WORK/PROJECT EXPERIENCE

Student Performance Analysis | **Deployed App** | **Github**

April - May 2026

Tech Stack: Python, Pandas, Scikit-learn, Matplotlib, AWS Elastic Beanstalk

- Analyzed student performance dataset using Python, Pandas, and Matplotlib.
- Performed exploratory data analysis (EDA) and feature engineering to prepare the data for training.
- Built and evaluated regression models using Scikit-learn to predict student performance scores.
- Evaluated model performance using R^2 score and RMSE.
- Deployed the project on AWS Elastic Beanstalk and uploaded the source code to GitHub.

Algerian Forest Fire Prediction | **Deployed App** | **Github**

May 2026

Tech Stack: Python, Pandas, Scikit-learn, Matplotlib, AWS Elastic Beanstalk

- Built a regression model to predict the Fire Weather Index (FWI) using real-world environmental data including temperature, humidity, wind speed, and rainfall.
 - Applied data preprocessing, outlier handling, and feature selection to improve model performance.
 - Trained Ridge Regression model using Scikit-learn and evaluated using RMSE and R^2 score.
 - Deployed the project on AWS Elastic Beanstalk and uploaded the source code to GitHub.
-

EDUCATION

Bachelor of Computer Application

Aug 2023 - Jul 2026

- Maa Shakumbhari University
 - CGPA : 7.54
 - Graduation : 2026
-

ADDITIONAL INFORMATION

Technical Skills:

- **Language & Frameworks:** Python, SQL
 - **Machine Learning:** Scikit-learn, Pandas, Numpy, Matplotlib
 - **Backend:** FastAPI, Flask
 - **Tools:** VS Code, jupyter lab , Dagshub
 - **Cloud & Deployment:** AWS EC2, AWS Elastic Beanstalk, Amazon S3, Amazon ECR, Docker
 - **Version Control:** Git, Github
 - **Concepts:** Machine Learning, EDA, Data Preprocessing, Feature Engineering, Model Evaluation, Data Visualization
-

CERTIFICATIONS/COURSES

- **Python Programming – CodeWithHarry:**
Applied concepts to build projects such as a chatbot and file automation tool, strengthening problem-solving skills.
 - **Data Science & Machine Learning – CodeWithHarry:**
Worked with NumPy and data processing techniques to understand real-world data handling.
 - **MySQL & Advanced Data Science – Udemy:**
Enhancing skills in database design, SQL queries, and advanced data analysis techniques.
 - **Advanced Machine Learning – Udemy(Ongoing):** Currently learning advanced ML concepts including model deployment, pipelines, and real-world project implementation.
-
